

## Labeling your Quilt for the Show

In addition to your signature label, your quilt will need a temporary label (lower right corner at the back of the quilt) with the information below for the quilt collectors. This label and the hanging sleeve above can be made with muslin.

The same information will need to be on each entry's bag. In both cases, the quilt label and the label/info on the bag should be written in permanent black ink and legible. The label on the bag should be near the opening of the bag. This makes it easier to match-up the bag and quilt during the takedown process.

1. **Name of the quilt you used on the entry form**
2. **Your Name**
3. **Your telephone number**
4. **Chapter**

## What Information Goes on a Permanent Signature Label?

You should label all of your quilts. It is an historic record of your quilt. What information you put on your permanent signature label is up to you, but some of the information you should consider including are:

1. The name of the quilt
2. Who made the quilt (who pieced it and who quilted it, if different)
3. Where the quilt was made (City and State)
4. When the quilt was made

You can also include information on

5. Type of quilt (civil war reproduction, modern, wholecloth, etc.)
6. Sentiments
7. Photos

If you are making a label for a baby quilt how about including

8. Name of the child
9. The child's date and place of birth
10. Names of the child's parents
11. Your relationship to the child
12. The special occasion for the quilt (e.g., birth, christening, first birthday, etc.)
