

## How to Load the Wild Apricot App on Your Phone or Pad

It is very easy to load the Wild Apricot (WA) App onto your phone or pad. Follow these simple instructions:

- On your phone or pad, locate where you get apps (APP STORE on Apple devices).
- Go to SEARCH (depending on your device, it may be on the bottom of the screen).
- In the SEARCH bar (at the top), type in WILD APRICOT FOR MEMBERS.
- Hit SEARCH.
- You will see “wild apricot for members” at the top of the list – TOUCH IT or CLICK ON IT.
- You will be taken to a screen (there will most likely be an ad at the top, scroll past it).
- You will see WILD APRICOT FOR MEMBERS. The icon is a gold circular motif (similar to a flower).
- Click on OPEN.
- You will see a popup that asks if you want to Allow or Not Allow NOTIFICATIONS. Click the one you want (either is fine).
- You will see the LOGIN page. This is where you LOGIN. Type in the **SAME email and password you use to log into the Quilters Unlimited website on your computer.**
- Hit LOGIN.
- You will be taken to Your Profile.
- You can select other features at the bottom of the screen (Members, Events, My Tickets and My Profile).

NOTE: The app does not have all the features of the website. It is very useful for looking up addresses, phone numbers and emails, checking events and updating your profile.

NOTE: Non-Apple devices may have other screen layouts.
